Metallic Plaster A PLATINUM SERIES PRODUCT

Platinum Series Products are an ever expanding line of decorative products, manufactured in the USA, for the “Trained Professional”. All products are formulated with the finest ingredients available and with the intent of creating the most elegant and sophisticated finishes in the market. The line includes Zero VOC Basecoats, Wall Glazing Creams, Glazing Cream Colors, Metallic Plasters and several aggregate plasters.

Platinum Training Centers are an elite group of Decorative Finishing Schools dedicated to teaching beginners, intermediate and professional applicators the art of Decorative Painting. Our Platinum Training Centers are strategically positioned across the USA and abroad. World renowned instructor, Kelly S. King, Director of Education and New Product Development for Modern Masters, has created an exclusive curricula taught by the Platinum Training Centers worldwide.

Platinum Series Metallic Plaster

A pre-colored, trowel-applied, architectural coating that emits a symphonic blend of shimmer, luster, elegance and environmental friendliness. Metallic Plaster

is mixed and color matched in our factory for consistent project results and available in over 50 standard colors. It is durable, water resistant, mold & mildew resistant and will adhere to any primed surface. This lightweight water base coating applies easily and can be used to create a wide variety of decorative finishes.

Features & Benefits

- Metallic Plaster goes 30-40% further making it a better value
- A beautiful shimmering finish can be achieved in just two layers, saving time and money
- Creates enhanced luster and shimmer with our special blend of glass spheres, pearlescent and mica particles
- Advanced color matching technologies provides consistent color and performance from batch to batch
- Enhanced adhesion prevents the finish from pulling off when removing masking patterns, painter’s tapes or adhesive backed stencils
- Superior surface durability allows for glazing directly to the Metallic Plaster finish eliminating the need for barrier coats
- Contains no hazardous components and qualifies as a LEED specifiable material

Metallic Plaster Color Card

To fully appreciate the full range of over 50 pre-mixed colors you need to view the actual product. It’s easy to order a Metallic Plaster Color Card, just call 1-800-942-3166.

Japanese Trowels

We searched the globe for a set of trowels with the right balance of feel and strength to apply our Metallic Plasters and found them in Japan. Produced in the same region as the famous Samurai swords, these light weight trowels are made of 3 mm stainless steel, the thinnest in the world, which makes them extremely flexible and yet, incredibly strong. Our Modern Masters branded Japanese trowels are professional grade and will outlast and out perform other imported Japanese trowels.
